

ACTIVITIES AGAINST COVID-19: The situation of the covid-19 epidemic fell into a crisis in HCMC and some southern provinces – Vietnam, it starts from the beginning of July 2021, leading to a rapid increase for oxygen demand in medical facilities. So, it request to coordinate between the manufacturers, suppliers, and transporters of Oxygen and hospitals throughout the country to provide timely.

- ❑ The Ministry of Health has held many meetings with oxygen manufacturers and suppliers..
- AIGA VN's member companies are the main oxygen producers in VN, about 95% of the domestic market share
- ❑ Vaccinations: Most employees of member companies have been vaccinated with 2 doses
