

ACTIVITIES DURING COVID-19 PANDEMIC:

AIGA VN, with its member companies, effort to cooperate with the Vietnamese government in all activities of supplying medical oxygen to medical facilities during the crisis of oxygen shortage across the country. Joining hands to save the lives of covid-19 patients is also the responsibility and pride of AIGA VN members

LOX donation	530 ton
GOX donation	1,200 cyls.
Free O ₂ tank installation	26
O ₂ tanks for free rent	23
Donating centralized Oxygen system	1

Attended all the meetings regarding oxygen supply chain organized by VN Gov.

Resource dedication: Material and spiritual

Donation

SEMINAR IN PERSON "CHEMICAL SAFETY IN INDUSTRIAL GASES FIELD – 20-05-2022

AIGA VN, in collaboration with Vietnam Chemical Agency (VINACHEMIA), organized a seminar on "Chemical safety in industrial gases field", for the purpose of sharing basic knowledge about industrial gases, pressure equipment and safety awareness in use, transportation, movement and storage to prevent unfortunate accidents that may occur.

- The seminar was held in Ho Chi Minh City with over 75 participants, including representatives from VINACHEMIA management and companies operating in the fields of industrial gases and medical gases.

NEW MEMBER COMPANY – JOIN FROM JULY 1ST, 2022

Vinasanfu Industrial Gases Co., Ltd.

100% Taiwan capital

Head office and factory: Hai Phong

General Director: Mr. Chen Jie Yuh

SC member – AIGA VN

LEGAL DOCUMENT ISSUED WITH COOPERATION OF AIGA VN

1. **5275/QĐ-BYT, dated 12-11-2021 by MOH**
Provisional decision to guide the conversion of other gas cylinders to medical oxygen cylinder
2. **17/2021/TT-BLĐT BXH, 15-11-2021, MOLISA**
Inspection procedure for industrial gases cyl.

INTERNAL WORKSHOP ON CHEMICAL GASES – 16-06-2022

The covid-19 pandemic places an emphasis on medical oxygen as an essential part of disease treatment. Faced with that situation, MOH classifies med. oxygen as a DRUG from 2022. **DRUG = responsibilities, risks and regulations.** Most of the member companies of AIGA VN are the main oxygen producers in Vietnam. AIGA VN needs to make efforts to share knowledge and recommendations to MOH on medical gas management regulations. This internal workshop is a preparation step for signing of cooperation agreements with MOH in the future.

DOCUMENTS ISSUED

1. **AIGAVN-SA-002:**
Safety for compressed gas cylinder
2. **AIGAVN-SA-003**
Safe use of oxygen
3. **AIGAVN-TM-001. Rev. 01**
Gases basic knowledge
4. **AIGAVN-TM-002. Rev. 01**
Knowledge of pressure equipment
5. **AIGAVN-TM-003. Rev. 03**
Safety awareness
6. **AIGA 030/13 Rev. 30/06 (Translation)**
Storage of cryogenic air gas at Users' premises

MAJOR ADMIN CHANGES – Extension of the operation certificate from Aug 15, 2022
– AIGA VN new leaders' election for term 08/2022 – 08/2025

COMING SEMINAR

– Safety in install, use and store industrial gases
