

# Transport Safety - SAFE FOLLOWING DISTANCE CAN SAVE LIVES

*“Protect yourself and everyone around you”*

## TAILGATING STEALS YOUR REACTION TIME:

One sudden brake, one second too close and a life can change forever. **Keeping a safe distance** is not just about the rule but it is about giving **yourself**, and **others**, a chance to **survive**.

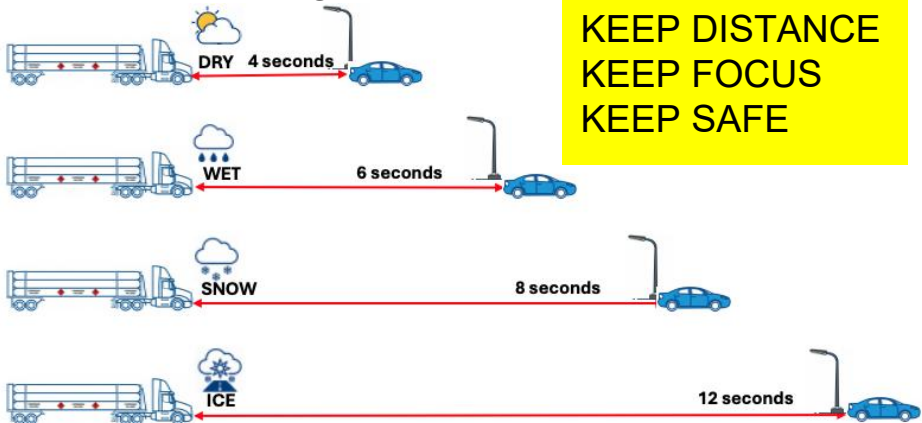

## STOPPING DISTANCE - BRAKES APPLIED AT 60 KM/HR

## ALWAYS FOLLOW THE 4-SECOND RULE:

Maintain at least a **4 sec** gap in normal condition. **Increase** safe following distance by **3 ~ 4 times** in **rain, snow, or icy** road conditions. **STOP** driving if visibility prevents maintaining a safe distance or icy condition causes loss of vehicle traction or control.

## RECOMMENDED MINIMUM TIME GAP FOR FOLLOWING A VEHICLE AT ANY SPEED:
